

Complete Cloud Security with Centrify + Imperva

CENTRIFY ALLIANCE

The Imperva Skyfence Cloud Gateway is a Cloud Access Security Broker (CASB) that provides visibility and control over sanctioned and unsanctioned cloud apps to enable their safe and productive use.

Centrify Identity Service™ and the Imperva Skyfence Cloud Gateway together provide an integrated approach for ensuring the safe and productive use of cloud apps. From Office 365 to any unsanctioned app, Imperva Skyfence helps organizations monitor and analyze user activity, protect data in motion and at rest, and enforce user access control policies for both unmanaged and managed endpoints.

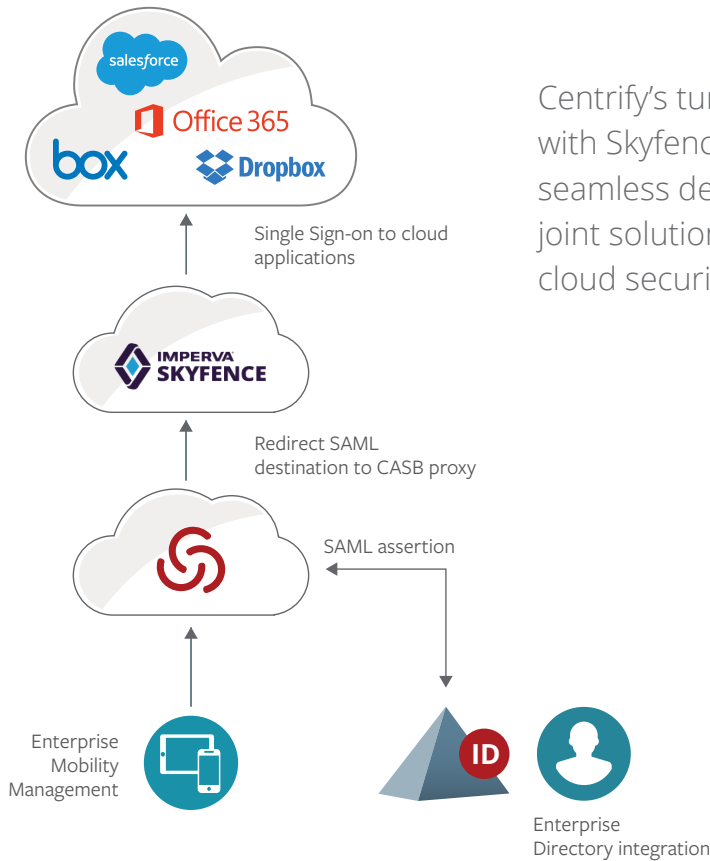

Centrify Identity Service integrates with Skyfence to provide a comprehensive solution for provisioning, governing, and securing enterprise cloud apps

- Secure access to business-critical applications via directory integration
- Automatic provisioning and de-provisioning of users
- Application and mobile device provisioning & management
- Governance policies based on user identity, devices and locations
- Visibility into cloud app use and monitoring of privileged accounts
- Granular access controls for managed and unmanaged devices
- Automatic detection of anomalies or high-risk activities
- Enforcement of risk-based multi-factor authentication

5000+ Customers, including 24 of the Fortune 50, rely on Centrify

Cloud Security Made Easy

Centrify's turnkey integration with Skyfence ensures seamless deployment of the joint solution and enhanced cloud security.

Try Centrify for Skyfence — **Free!**

Free Edition for Skyfence	
Single sign-on for cloud and mobile	Your single app
Active Directory, LDAP and/or cloud-based authentication and administration	✓
