

Centrify Identity Service for Apps – Virtual Classroom

Overview

This course is designed for administrators of the Centrify Identity Service for Apps. At the completion of the Centrify Identity Service for Apps Virtual Classroom, your staff will be proficient at installing, configuring, and operating Centrify products across your SaaS and mobile environment. This technical training is over eight (8) hours of live instructor led virtual classroom demonstrations, recorded copies of the daily sessions, and associated training documentation.

Course Logistics

The virtual classroom will be delivered through an online meeting program. This classroom includes access to a lab environment. Each session will have time allocated for live questions and answers. Please see the Terms and Conditions for exact details on course registration and attendance.

Students will attend training for two (2) consecutive days. Training dates can be found here:

<http://www.centrify.com/training>.

For each student, the following requirements need to be met:

- One of the following: Windows 7 or higher - Mac OS X 10.9 or higher - iOS 8 or higher - Android 4.0 or higher
- A stable internet connection of 1Mbps or better for computers - 3G or better for mobile
- A JavaScript enabled web browser

Pricing and Ordering

Please contact your Centrify Sales Representative to order.

Terms and Conditions

All virtual classrooms are delivered live one week each month. The virtual classroom schedule will be posted to <http://www.centrify.com/training>. Upon purchase of training you will have up to 180 days to register for an upcoming class. All training must be completed within 180 days of purchase.

Attendance in the instructor led virtual classroom is not required, but is strongly suggested. If you are unable to attend the virtual classroom, the session recordings will be available for 180 days from the completion date of the registered instructor led training. These recordings will be removed and unavailable after 180 days. This cannot be extended under any circumstances.

About Centrify

Centrify is the leader in securing enterprise identities against cyberthreats that target today's hybrid IT environment of cloud, mobile and on-premises. The Centrify Identity Platform protects against the leading point of attack used in data breaches — compromised credentials — by securing an enterprise's internal and external users as well as its privileged accounts. Centrify delivers stronger security, continuous compliance and enhanced user productivity through single sign-on, multi-factor authentication, mobile and Mac management, privileged access security and session monitoring. Centrify is trusted by over 5000 customers, including more than half of the Fortune 50. Learn more at www.centrify.com.
