

# Centrify Privileged Access Service

## Course Overview

Centrify Privileged Access Service Advanced Technical Training prepares your IT and security teams to successfully plan, install, configure and manage the Centrify identity and access management solution. You will learn more about what Centrify is and how our solutions can benefit your organization.

Students will receive hands-on experience of installing Centrify Privileged Access Service into an Active Directory environment; configuring the solution to manage Windows and UNIX based systems and users — configuring access for AD accounts to access UNIX systems using role-based access methodology, password vaulting and multifactor authentication.

## Who Should Attend This Course?

- System Administrators
- System Engineers
- Implementation Consultants
- Solution Architects

## Course Format

This 2-day course is a virtual instructor-led training with virtual presentations, technical demonstrations and hands-on lab exercises. Students will use their own computers to remotely connect to each day's session and access the Centrify provided virtual environment.

## Prerequisites

Students should have a basic understanding of Identify and Access Management (IAM), Active Directory and UNIX operating system commands.

## Certification

This course will prepare students to take the Centrify Certified System Administrator (CCSA) certification exam and the Centrify Certified System Engineer (CCSE) certification exam (\$125.00 exam fee – sold separately). All students who attend will receive a Certificate of Completion at the end of the course.

## 2019 COURSE DATES\*

**TUESDAY - WEDNESDAY**  
January 29 - 30, 2019  
9:00am - 5:00pm CST

**TUESDAY - WEDNESDAY**  
February 26 - 27, 2019  
9:00am - 5:00pm CET (UTC +01:00)

**TUESDAY - WEDNESDAY**  
April 9 - 10, 2019  
9:00am - 5:00pm CST

**TUESDAY - WEDNESDAY**  
May 21-22, 2019  
9:00am-5:00pm CST

**TUESDAY - WEDNESDAY**  
July 2 - 3, 2019  
9:00am - 5:00pm CET (UTC +01:00)

**TUESDAY - WEDNESDAY**  
August 13 - 14, 2019  
9:00am - 5:00pm CST

**TUESDAY - WEDNESDAY**  
September 24 - 25, 2019  
9:00am - 5:00pm CST

**TUESDAY - WEDNESDAY**  
November 12 - 13, 2019  
9:00am - 5:00pm CET (UTC +01:00)

## COURSE AGENDA

### DAY ONE

1. **Introduction to Centrify**
2. **Centrify Platform Architecture**
  - Centrify Solution Features
  - Network Requirements
3. **Centrify Environment**
  - Components of Centrify Server Suite
  - Integrating Centrify into Active Directory
  - Installation of Centrify Server Suite
  - Centrify Licensing Service
4. **Privileged Access Service**
  - Configuring Admin Portal
  - Assigning Global Permissions
  - Assigning Global Security Settings
5. **Centrify Connector**
  - Prerequisites
  - Installation
  - Configuration
  - Scaling
  - Configuring Access Roles
  - Assigning Subnet Maps to a Centrify Connector

### DAY TWO

6. **Adding Systems and Accounts**
  - Performing a Discovery
  - Configuring System Settings
  - Configuring System Permissions
  - Configuring System Policies
  - Adding Accounts
  - Assigning a System to a Centrify Connector
7. **Managing Accounts**
  - Account Types
  - Account Permissions
  - Password Checkout/ Check-In Process
  - Password Rotation
  - Password Policies
  - Configure Remote Login
  - Managing Service/ Application Passwords
  - Workflow
8. **Session Monitoring**
  - Requirements
  - Capture Sessions
  - Replay Sessions
9. **Advanced Configuration**
  - Mobile Device Access
  - Multi-factor Authentication for Servers

**Format: Virtual Instructor-Led (VILT)**
