

# Centrify Authentication & Privilege Elevation Services Self-Paced Training

## Course Overview

Centrify Authentication and Privilege Elevation Services Self-Paced Technical Training prepares your IT and security teams to successfully plan, install, configure and manage the Centrify Identity-Centric PAM solution. You will learn more about what Centrify is and how our solutions can benefit your organization.

Students who attend the self-paced training will receive experience of installing the Centrify Authentication and Privilege Elevation Services into an Active Directory (AD) environment; configuring the solution to manage Windows and UNIX based systems and users — configuring access for AD accounts to access UNIX systems using a role-based access methodology, brokered authentication and multi-factor authentication.

## Who Should Attend This Course?

System Administrators, System Engineers, Implementation Consultants, Solution Architects

## Course Format

This self-paced remote training course is delivered through Centrify University and includes virtual presentations and recorded technical demonstrations of each lab exercises. Students will use their own computers to remotely connect to the training and can download a student and lab guide to use during the course and after the course to practice in their own training environment.

## Prerequisites

Students should have a basic understanding of Identity and Access Management (IAM), Active Directory and UNIX operating system commands.

## COURSE AGENDA

| DAY 1   | DAY 2   |
|---|---|
| <b>UNIT 1: Centrify Identity-Centric</b> <ul style="list-style-type: none"><li>Centrify Authentication Service Architecture</li><li>Centrify Privilege Elevation Service Architecture</li><li>Centrify Access Manager</li><li>Centrify Licensing Service</li><li>Installation of Centrify Access Manager</li><li>Configuration of Centrify Access Manager</li><li>Centrify Deployment Preparation Tasks</li></ul> | <b>UNIT 3: Rights and Roles</b> <ul style="list-style-type: none"><li>Creating Rights</li><li>Creating Roles</li><li>Adding Rights to Roles</li><li>Assigning Roles to Users and Computers</li><li>Active Directory Group Policies</li><li>Multi-factor Authentication</li><li>Centrify Brokered Authentication Service</li></ul> |
| <b>UNIT 2: Zones and Zone Provisioning</b> <ul style="list-style-type: none"><li>Parent and Child Zones</li><li>Understanding Inheritance</li><li>Computer Object Creation</li><li>Managing Users</li><li>Zone Provisioning Agent</li><li>Centrify Clients</li></ul>  | <b>UNIT 4: Reporting, Scripting and Troubleshooting</b> <ul style="list-style-type: none"><li>Centrify Reporting Services</li><li>Generating Reports</li><li>Creating Custom Reports</li><li>Scripting</li><li>Troubleshooting Centrify Authentication and Centrify Privilege Elevation Services (CLI)</li></ul>                  |

Format: Self-Paced E-Learning (CBT)

Duration: Self-Paced (avail. for 180 days)

Price: \$1,000 per student
